UNIVERSITAS NEGERI MALANG (IPK: 3.86 / 4.0)

Aug 2023 - Now

Informatics Engineering

SMAN 1 SINGOSARI (NA: 92.20 / 100)

Aug 2021 - Apr 2023

Natural Sciences

EXPERIENCE

Administrative and Data Entry Intern

Nov 2025 - Jan 2026

Directorate of Innovation B15, Universitas Negeri Malang

- Received and verified the completeness of students' copyright application documents in accordance with applicable requirements.
- Accurately entered copyright application data into the official DGIP system (hakcipta.dgip.go.id).
- Ensured consistency and accuracy between physical documents and the data entered into the system.

Member of KPPS – Presidential Election

Jan 2024 - Mar 2024

Komisi Pemilihan Umum (KPU)

- Verified voters' identities by checking ID cards (KTP) against the official voter list at the polling station (TPS).
- Guided and assisted voters through each stage of the voting process.
- Contributed ideas and feedback during team coordination to ensure the election process was conducted in accordance with established procedures.

PROJECTS

Company Profile Desa Purworejo Ngantang

Sep 2025 - Oct 2025

- Collected and managed informational content from the village office as material for website development.
- Designed and developed the overall website layout and content structure to effectively present village information and services.
- Submitted a copyright registration for the company profile website to ensure intellectual property protection of the digital product.
- Prepared comprehensive project documentation, including website reports and published articles.
- **Tools & Technologies:** Next.js, JavaScript, HTML5, CSS3, Tailwind CSS, Vercel, Microsoft Word

Gallery Website

Jun 2025 - Aug 2025

- Developed a full-stack web application to upload, store, and display photos with integrated cloud storage.
- Implemented secure image upload and retrieval features to ensure data security and efficient performance.
- Designed a responsive gallery interface to provide a clean and seamless photo browsing experience on mobile devices.
- **Tools & Technologies:** GitHub, Next.js, Prisma, HTML5, CSS3, Tailwind CSS, Neon, Cloudinary, JavaScript, Vercel

WarniSys

Sep 2024 - Des 2024

- Created high-fidelity and low-fidelity website designs for WarniSys using Figma to visualize system layout and user flow.
- Submitted a copyright registration for the website product to ensure intellectual property protection of the project.
- Prepared comprehensive project documentation covering design, features, and development details.
- Conducted bug testing and added dummy data to ensure proper functionality and a more realistic user interface.
- **Tools & Technologies:** React.js, JavaScript, Prisma, MySQL, HTML5, CSS3, Tailwind CSS, Figma, Microsoft Word, Canva

Café Flash

Feb 2024 - Jun 2024

- Developed a payment interface for Cafe Flash to enhance the checkout experience and overall visual presentation.
- Conducted testing and debugging of payment features to ensure smooth and reliable functionality for users.
- Assisted in documenting the project development process to maintain clear structure and easy understanding.
- **Tools & Technologies:** GitHub, PHP, MySQL, HTML5, CSS3, Tailwind CSS

SKILLS

- **Tech Skills:** JavaScript, Python, React.js, Next.js, HTML5, CSS3, TailwindCSS, Bootstrap, Node.js, Express.js, Prisma, Restful API Design, MySQL, Neon, Git, GitHub, Vercel, Cloudinary, Google Maps API, Gemini API, Microsoft Office Suite (Word, Excel, PowerPoint), Google Workspace, Canva, Capcut, Google Colab, Figma
- **Non-Tech Skills:** Leadership, Project Management, Teamwork, Adaptability, Problem Solving, Technical Writing & Research, Analytical Thinking

CERTIFICATES

2nd Runner-Up – UI/UX Design Competition

Jun 2025

UI/UX COMPETITION - EXPLORE AH! 2025

- Distributed tasks to team members based on their respective competencies.
- Prepared comprehensive project documentation, including proposals, presentation materials, and UI/UX design deliverables.
- Led team discussions and monitored design progress regularly to ensure timely project completion.

Bronze Medalist – Capstone 2025

Jun 2025

Capstone Project Competition 2025: Empowering Society Through Smart Solutions

- Contributed to the preparation of the Software Requirements Specification (SRS), designed the website interface from low-fidelity wireframes to high-fidelity prototypes using Figma, and coordinated directly with the MSME partner, WarniCollection12, to ensure alignment with business needs.

Workshop AI

May 2025

AI Beyond Code Workshop: Building Smart Solutions for the Real World

- Studied and implemented Artificial Intelligence (AI) using Google Colab.

Cisco IT Essentials

May 2025

Cisco Academy International IT Essentials Certification

- Studied the fundamentals of Information Technology, including software, hardware, and networking.

2nd Place Winner – ICT Scientific Writing Competition (TIK FESMARO 2025)

Apr 2025

Electrical Engineering and Informatics Student Creativity Festival (FESMARO) 2025

- Conducted research on the latest AI technology trends, prepared comprehensive proposals and presentation materials, and presented the scientific paper systematically and confidently before a panel of judges.

Bronze Medalist – IDEA-Fest 2024**Nov 2024**

Innovations, Developments, Explorations and Applications in Techno-Science Festival (IDEA-Fest) 2024

- Contributed to the preparation of an innovation proposal in accordance with PKM competition guidelines.
- Actively shared ideas and innovative concepts during team discussions.
- Presented the innovation project before a panel of judges in a structured and communicative manner.

Web Programming Fundamentals**May 2024**

Coding Camp 2024 powered by DBS Foundation

- Learned the fundamentals of website development, including HTML structure, CSS styling, and adding dynamic interactions using JavaScript.
